LOCAL WATERSHED PLANNING

WE NEED YOUR INPUT

**Our Watershed affects
470,000 acres.**

Help local leaders develop a Watershed Management Plan to protect and restore our water resources.

This Open House will introduce One Watershed One Plan (1W1P) and is the first step in **getting input from the public that will help establish the goals and strategies** for a ten-year comprehensive watershed management plan. **All community members are invited** and broad participation is needed to identify and prioritize the issues the community cares about. **Local leaders need to hear from you** about your ideas, concerns, and what resources are important to you. Your ideas will help develop **a plan that uses solutions** that are viable and are most important to people that live and work in the watershed. **Please stop by virtually or at the Open House on Sept 20th** and be a part of this community-based watershed plan.

OPEN HOUSE - KICKOFF MEETING

Monday, Sept 20th

5 - 8 pm | Presentations @ 5:30 & 6:30

Tau Center, Winona State University

511 Hilbert St, Winona * Masks Required *
